

Probiophage DF™

Bacteriophages and Probiotics

GASTROINTESTINAL HEALTH*

A healthy gut microbiome may help support gastrointestinal (GI) function and motility, and immune health. Research indicates that certain probiotics may help support gut microbial diversity.* Probiotics may also help support a normal inflammatory response.*

Probiophage DF™ provides a dairy-free proprietary blend of seven probiotic strains and PrePhage™ Bacteriophage Prebiotic Blend. Bacteriophages are non-digestible, bacteria-targeting agents that have been shown to help support healthy populations of GI microbiota.* Evidence suggests that bacteriophages may help promote the body's response to certain undesirable bacteria.*

This unique formulation provides a clinically useful serving of 295 mg (5 billion CFU) of *Lactobacillus acidophilus*, *Bifidobacterium bifidum*, *B. longum*, *L. rhamnosus*, *L. casei*, *Streptococcus thermophilus*, and *B. breve*. It also contains 15 mg of PrePhage™ Bacteriophage Prebiotic Blend containing LH01-Myoviridae, LL5-Siphoviridae, T4D-Myoviridae, and LL12-Myoviridae to support the body's response to potentially harmful gut microbes and promote a healthy gut microbial balance.*

This formula is designed to help support GI microbial balance, gut motility and function, and immune health.*

Benefits*

- Supports a healthy gut microbial balance
- Promotes healthy gut motility and function
- Supports a normal immune response
- Promotes optimal GI health

Recommended Use

Take 1 capsule per day with a meal or as directed by your health-care practitioner.

Refrigeration is recommended and will ensure maximum potency and shelf life. Organism potency will decrease slowly; this process may be accelerated through exposure to heat, humidity, or direct sunlight. Viable organisms are used at the time of manufacture.

Highlights

- Synergistic combination of seven probiotic strains of *Lactobacillus*, *Bifidobacterium*, and *Streptococcus thermophilus* to promote gastrointestinal health and gut microbial balance*
- Clinically relevant amount of PrePhage™ Bacteriophage Prebiotic Blend containing LH01-Myoviridae, LL5-Siphoviridae, T4D-Myoviridae, and LL12-Myoviridae to support the body's response to unwanted gut microbes*
- Probiotic and prebiotic strain identification provided for transparency
- Dairy-free, gluten-free, soy-free
- Non-GMO
