

# GastroMend-HP™

Supports Microbial Balance + Mucosal Health\*

GASTROINTESTINAL HEALTH†

GastroMend-HP™ is a formulated blend of complementary botanical extracts and nutrients to support a healthy microbial balance within the upper gastrointestinal (GI) tract and to help maintain gastric mucosal health.\* This unique formula combines vitamin C, zinc L-carnosine, mastic gum, methylmethionine sulfonium chloride (MMS), and deglycyrrhizinated licorice (DGL) extract.

**GastroMend-HP™ may be helpful in attenuating occasional bloating, or stomach discomfort associated with imbalanced intestinal microflora.\***

The stomach lining contains a thick mucus layer that protects it from the harsh gastric acidity necessary for digestion and for killing unwanted organisms. Supporting the health of the mucosal layer is important for maintaining stomach comfort and microbial balance.\*

## Benefits\*

- Supports gastrointestinal health
- Promotes digestive microbial balance
- Supports gastric mucosal health

## Recommended Use

Take 4 capsules per day between meals or as directed by your health-care practitioner. (Divided dosing recommended.)

Mastic gum has a long history of use in the Mediterranean where it was chewed as gum. Mastic gum helps to relieve occasional stomach discomfort and promotes microbial balance.\* Methylmethionine sulfonium (MMS) is found abundantly in red cabbage and is a derivative of the amino acid methionine. MMS may support mucosal health throughout the digestive tract.\*

DGL is a well-researched botanical for supporting the normal repair and maintenance of a healthy mucosal lining throughout the GI tract.\* It serves to coat and soothe the intestinal lining and may help neutralize the effects of oxidative stress.\* The DGL in this formula features GutGard®, a patented form of highly concentrated, flavonoid-rich licorice extract to promote its potency and effectiveness.\* Zinc L-carnosine may help maintain a healthy microbial balance and offers further support for the mucosal lining.\* Vitamin C is known for helping support normal tissue regeneration and its antioxidant properties.\*

## Highlights

- Delivered in a quick-release capsule that dissolves easily for fast action
- Contains 500 mg of vitamin C (as ascorbic acid)
- Includes 17 mg of zinc (from zinc L-carnosine [75 mg])
- Contains 1 g of mastic gum (sap tears)
- 200 mg of methylmethionine sulfonium (vitamin U)
- 150 mg of deglycyrrhizinated licorice extract (as GutGard®), standardized to contain 10% total flavonoids
- Gluten-free, dairy-free, soy-free, and non-GMO
