

S-Acetyl Glutathione Synergy™ is a unique formula providing 200 mg of S-acetyl glutathione, 10 mg of vitamin B6 (as P5P), and 1 g of N-acetyl-L-cysteine (NAC) to help support antioxidative status, cellular and immune health, healthy aging, normal detoxification, and a healthy inflammatory response.* Glutathione (GSH) consists of amino acids, namely cysteine, glutamine, and glycine. GSH is considered the body's "master" antioxidant, which is critical for the maintenance of antioxidative balance and helping to protect cells from the effects of oxidative stress.* GSH also helps promote normal detoxification.*

Vitamin B6, or pyridoxine, is a molecule that metabolizes into cofactors for more than 100 enzymes in the human body. Vitamin B6 transforms in the body into an active coenzyme pyridoxal 5-phosphate (P5P). The intake of vitamin B6 may help support cellular health, brain function, and a healthy mood by supporting these critical enzymatic functions.* NAC, a derivative of the amino acid cysteine, is a critical precursor to glutathione. It may also help by supporting antioxidative status in the body by promoting normal glutathione levels and neutralizing reactive oxygen species.*

S-Acetyl Glutathione Synergy[™] may help support antioxidative status, normal detoxification, cellular health, neuronal function, and healthy aging.*

Benefits*

- Promotes healthy antioxidative status
- Supports normal detoxification
- Promotes normal cellular functioning and repair
- Supports a healthy immune response
- Helps support healthy aging

Recommended Use

Take 2 capsules per day or as directed by your health-care practitioner.

Highlights

- Provides 200 mg of S-acetyl glutathione, 10 mg of vitamin B6 (as P5P), and 1 g of N-acetyl-L-cysteine to support antioxidative status and optimal cellular health*
- Gluten-free, dairy-free, and soy-free
- Non-GMO
