

PaleoFiber®

A Synergistic Blend of Fibers

GASTROINTESTINAL HEALTH†

PaleoFiber® is a unique combination of botanically derived fibers from fruits, vegetables, roots, seeds, and tree extracts. This product was designed to help support the Paleolithic diet free from non-Paleolithic food extracts such as grains (wheat, oat, rice bran) and legumes (peas, beans, or soy fibers).

Many Americans do not meet the recommended daily intake of dietary fiber. PaleoFiber® helps support a healthy consumption of dietary fibers to promote gastrointestinal (GI) health, healthy motility, and colonic health.* It also contains prebiotics (such as acacia gum

and inulin) that help support the growth of beneficial GI bacteria.* This formula may also help support optimal blood sugar metabolism, and normal appetite.*

PaleoFiber® features a unique fiber blend that delivers 3 grams of dietary fiber to the GI tract in a convenient powder, making it easy to mix with other beverages. It is unsweetened and unflavored for optimal mixing with liquids. PaleoFiber® may help support optimal intestinal function and a healthy response to occasional constipation.* It may also support microbial balance and proper intestinal barrier function and integrity.*

Benefits*

- Helps promote optimal intestinal function
- Supports GI motility and bowel regularity
- Helps promote gastrointestinal microbial balance
- Supports colonic health

Recommended Use

Take 5 grams (approximately one scoop) per day or as directed by your health-care practitioner. Consume extra water when taking PaleoFiber®.

Highlights

- Proprietary blend of 12 types of fiber delivering 3 grams of dietary fiber per serving
